DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 18, 2004 has been entered.

Election/Restrictions

2. Claims 2-15 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on September 11, 2003.

Claim Rejections - 35 USC § 103

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claim 1 remains rejected under 35 U.S.C. 103(a) as being unpatentable over Vayssie et al., US 5,073,174 for the reasons of record in the previous office action.

Response to Arguments

5. Applicant's arguments filed November 18, 2004 have been fully considered but they are not persuasive. Applicant argues that the reference does not disclose the specific isomer claimed by applicant. This argument was rebutted in the previous office action. Applicant argues that the recited compound displays unexpected results in the dyeing of hair. This is not persuasive because the test for unexpected results is twofold: The results must be truly unexpected, and the comparison must be made with the closest prior art. The showings in the specification do not provide unexpected results, as discussed in the previous office action, and the comparison has not been made vis-à-vis the closest prior art, which is the Vayssie reference.

6. If applicant wishes to provide an affidavit comparing the isomer of Vayssie with the compound presently claimed, the examiner will consider it after final rejection.

7. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
